

God's Care Children Foundation has been a beacon of hope for the children of Malube village - providing shelter, education, and support to those in need. However, recent reports of increasing child abductions and safety concerns within the village have raised alarms about the potential risks that may soon affect our centre.

Last week - over 15 children were trafficked from our community. We have heard nothing from the ongoing investigation which is a causing concern for us – here at God's Care Children Foundation.

To safeguard the well-being of our children and ensure a secure environment - it is imperative to implement comprehensive security measures. One such measure is the installation of security cameras.

**The primary objective of this proposal is to advocate for the installation of security cameras at our orphanage to enhance safety and prevent potential incidents of abuse or - harm to our children.**

#### THE BUDGET

The total amount required for the installation of security cameras at God's Care Children Foundation is estimated to be \$2100. This will cover expenses related to equipment procurement; installation; training; maintenance and - ongoing operation.

The installation of security cameras at God's Care Children Foundation is imperative to enhance safety and protect the well-being of our children. By implementing this comprehensive security measure - we reaffirm our commitment to providing a secure and nurturing environment for the vulnerable children under our care. We urge stakeholders to support this proposal and prioritize the safety and security of our children above all else.

Thank you for considering this proposal. We look forward to your support and collaboration in making God's Care Children Foundation safe.

# INSTILING A SENSE OF SECURITY

## OUR OBJECTIVES

- The presence of visible security cameras acts as a deterrent to potential perpetrators, reducing the likelihood of abusive behaviour or unauthorized access to the premises.
- Security cameras enable continuous monitoring of the orphanage premises - allowing staff to promptly detect and respond to any suspicious activities or safety concerns.
- Recorded footage from security cameras serves as valuable evidence in investigating incidents, identifying perpetrators, and - ensuring accountability in case of any untoward incidents.
- Transparent surveillance through security cameras fosters accountability among staff members and ensures adherence to the highest standards of care and professionalism.
- The proposed solution involves the installation of a comprehensive security camera system strategically positioned throughout the orphanage premises.
- The system will include high-definition cameras.
- Deploying high-resolution cameras capable of capturing clear and detailed footage - even in low-light conditions, to ensure optimal surveillance coverage.
- To instil a sense of security for all at God's Care Children Foundation.
